The Company:

Adamz Safety Glass FZE(ASG) is an established Ballistic glass Manufacturing company, Located in Ras Al Khaimah, United Arab Emirates. ASG intends to serve the increasing demand of ballistic glass both domestic and the global market.

ASG has acquired latest advanced machinery and employed highly qualified personnel with 10-20 years of glass manufacturing experience. ASG will promote strong business relationship with clients by producing high quality products based on international standards and best delivery terms. To name few of our products: our Bullet Defender and Blast Defender glasses are suitable for bullet resistance and anti-blast applications. ASG glass is certified by Wiltshire Ballistic Services Ltd, UK & Beschussamt Mellrichstadt, Germany.

Adamz safety Glass(ASG) aims to be known as the producer of quality safety glass products. ASG is a dynamic company that complies with the highest international safety standards. So when it comes to safety Glazing, ASG is the name you can trust.

Our Policy:

Our Equation for Success: Manpower, Machines, Materials, Training, Market Leadership and Constant Quality improvement equals guaranteed customer satisfaction and long-lasting business relationships.
